DETAILED ACTION

Response to Remark

- This communication is considered fully responsive to the Amendment mailed on 12/18/2007.
 - a. An objection to the drawing is withdrawn since it is being amended accordingly.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 2, 5-10, 12, and 15-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

In claims 5 and 15, applicant claims "a data packet implemented on a computer readable storage medium" and "a data packet embedded in a signal", respectively. That is, claims data structures embedded in a signal which are nonstatutory subject matter. It is also noted that "computer programs" and "computer products" are not described in the specification.

Claim Objections

4. Claims 5, 7, 30 and 32 are objected to because of the following informalities:

In claims 5, 7, 30, and 32, the original dependency of the claims have been changed. Appropriate correction is required to avoid insufficient antecedent basis for this limitation in the claim.

10/658,384 Art Unit: 2619

Allowable Subject Matter

- 5. Claims 24, 28-40 & 44-46 are allowable.
- 6. Claims 2, 5-10, 12, and 15-20 would be allowable if rewritten to overcome the rejection(s) under 101 statutory.

Contact Information

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jung Park whose telephone number is 571-272-8565. The examiner can normally be reached on Mon-Fri during 6:15-3:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edan Ogad can be reached on 571-272-7884. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
